REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: claim 1-14 are allowed over the prior art of record because the prior art of record, considered in combination or individually, fails to suggest or fairly teach an optical device including a polarizing beam splitter for transmitting or reflecting a diverging light according to a polarized light component; a collimator lens for converting the diverging light transmitted through the polarizing beam splitter into collimated light; an objective lens for focusing the collimated light on an object; an optical element arranged between the collimator lens and the objective lens for producing a phase difference of $+90.\text{degree}..+-.15.\text{degree}.$ or $-90.\text{degree}..+-.15.\text{degree}.$ between P-polarized light and S-polarized light, and the optical element having a principal axis perpendicular or parallel to a plane of incidence of the diverging light on the polarizing beam splitter, as recited in each of claims 1 and 8. Claims 2-7 and 9-14 are allowed with their respective parent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

CITED REFERENCES

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references relate to an optical apparatus having an optical wavelength plate provided between a collimator and an objective lens for changing the phase or direction of a polarized beam.
